

Creative

**TEAM-BUILDING
WORKSHOPS**

Team-building activities

Choose a creative activity out of:

- Ceramics
- Macramé
- Wood Crafts
- Calligraphy
- Seasonal

These activities are designed to showcase each participant's approach to the project of choice. All participants start with the same materials for the same project but each outcome will be as unique as their creator.

Select your activity and project from the following, non-exhaustive list.

Ceramics

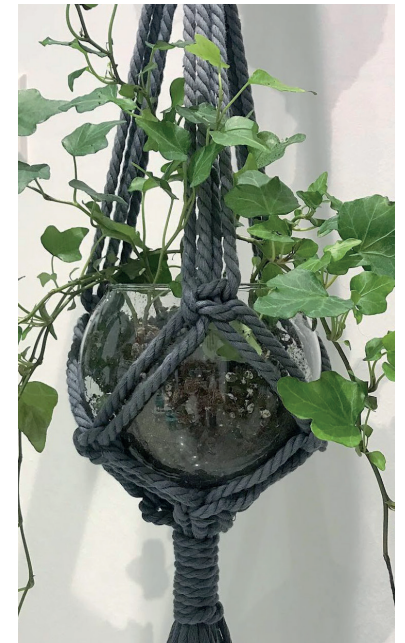

Each participant will work with a piece of clay to create a small piece of ceramic ware. The pieces can be personal or combined into a larger piece for the company office.

Please note: Clay pieces need to be left at our venue for drying and firing in the ceramic kiln. The completed work will be ready for pick up 10 days after the event.

Macramé

Each participant will choose their favourite colour of rope from our selection and learn the basic Macramé knots to create a small Macramé project out of the following themes: Plant Hangers, Wall Hangings or Keychains.

Wood Crafts

The pieces of wood will be provided ready to use by each participant to paint, decorate and finish in their own style, colours and choice of materials.

Calligraphy

We will go through the basic strokes, rules and techniques of modern calligraphy, learn how to use the different pens, markers and tools available to this modern art form and proceed to create a piece of work that can be painted onto a medium of your choice, such as wood or cardstock.

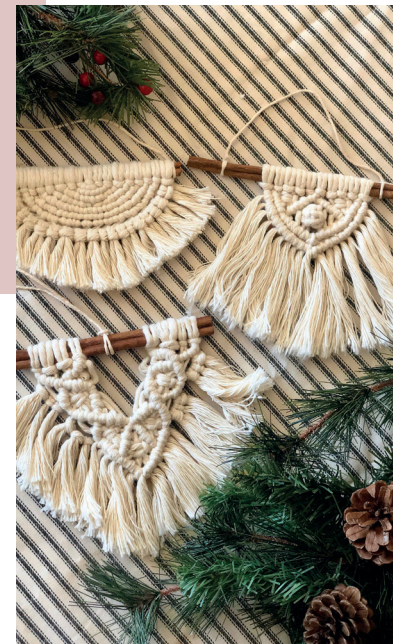

Halloween

We have prepared a selection of projects for the spookiest time of the year, designed to decorate your office or home.

Christmas

For the most festive time of the year, we have a selection of projects in a variety of textures, materials and finishes available. Ceramic, fabric, macramé and wood are just some of the options available. At the end of this workshop each participant will have a finished Christmas decoration that can be combined with everyone else's to decorate the company office or be used to decorate their own homes.

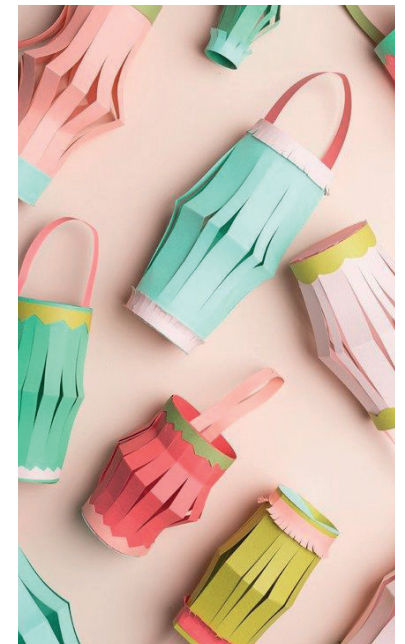

Valentine's Day

Our Valentine's Day projects can be decorative or given to that special someone. Cards, garlands, frames and cardstock crafts are available for you to choose from depending on what you want your team to work on. You can choose more than one project if time allows for it.

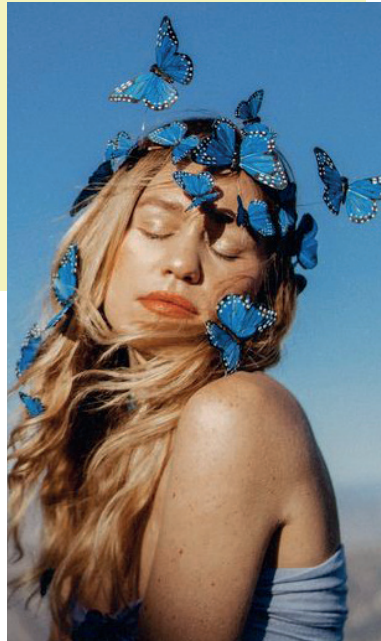

Chinese New Year

We have a selection of cardstock projects designed to celebrate this colourful occasion. From lanterns to dragons, origami birds, garlands and fortune cookies, there is a project for everyone. You can choose more than one project if time allows for it.

Carnival

Create the statement headbands for your carnival outings! Each can be worn with a variety of different outfits or on their own.

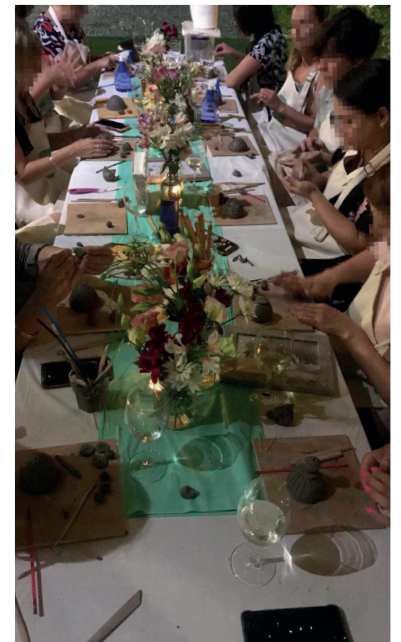

Easter

Use a variety of different materials and techniques to craft our Easter projects. From paints, to wool, ceramics and fabric, we have a project for everyone!

Summer Workshops in our garden

During the warm and dry months of the year you may choose to have your team building workshops in our garden, under a sky of fairy lights.

Our Creative Space

During the few months of the year when hosting a workshop in our garden is not an option, we made sure that hosting you inside is an experience on its own. We have tirelessly worked on making our creative space a place where you can relax, learn and enjoy yourselves immersed art.

Workshop Details

- Up to 12 participants depending on the chosen activity
- 2 hour workshop
- Choose which activity and project suits your team best
- Choose between cheese and wine or tea, coffee and biscuits for the team

Please note: - Projects must be chosen at least 5 working days prior to the workshop.

About us

Emily is our Creative Director. She holds a BA in Product Design from Central Saint Martins College of Art and Design and a MA in Design Education from Goldsmiths University of London.

Her passion is her driving force in facilitating and nourishing our students' talents in their fields of interest. She has tirelessly worked to design each of our creative courses based on the individual demands and skills that are indispensable to each course.
